

UMSU International is the official representative body for all international students at the University of Melbourne, including undergraduate, postgraduate, study abroad and exchange students at the University of Melbourne.

The International Student Ambassador (ISA) Program is a volunteer program within Umsu International. It aims to actively engage students, both international and local, in Umsu International's activities.

In the long run, Umsu International aims to develop a strong community of people who will have a deeper understanding of the role, structure, operation and services of Umsu International, and contribute to the international students' community.

The program also serves as a possible preparatory stage for students who may wish to become Umsu International Committee Members in the future.

What is the ISA program?
